## ABOUT ME

I'm an enthusiastic, hard-working creative who takes ideas and makes them tangible. Whether it's envisioning the world for a filmmaker's story to live within, or creating a character from scratch, I'm ready to dive in and bring it to life. I'm comfortable working within tight deadlines and know how to manage my time wisely, even when there are many tasks on my plate. I play well with others, but am happy to fly solo if that's what the job requires. I love expanding on my skillsets, and I thrive in environments where I can collaborate and learn from others, while also putting my talents to good use.
